Marxist-Humanist Initiative (MHI) is becoming a "pole of attraction" to radical youth seeking to break free from the confines and agendas of the soft-on-Trump "left."

Some of these youth will join with MHI members at this meeting to discuss how Marxist-Humanist principles can aid the Resistance and make the left a force that fights for freedom and the rights of all human beings.

Join us in this critical discussion!

Presentations will be followed by full and free discussion from the floor.
